Index to Volume 13

Acclimatization
altitude, relation to heart work and work performance, 75
altitude, responses of pregnant ewe and fetal lamb, 171
cold, effect on plasma electrolytes, 239
heat, effects on response to passive tilting, 465
Acetazoleamide, effect on thyroid function, 491
Acid-base relations between spinal fluid and arterial blood, 385
ADAMS, T. AND E. J. HEBERLING. Human physiological responses to a standardized cold stress as modified by physical fitness, 226
Adipose tissue, role in loss of body weight, 129
ADOLPH, E. F., S. KLEM AND L. B. MORROW. Reversible cessation of blood circulation in deep hypothermia, 397
Adrenaline excretion, in anxiety, effect of alcohol, 118
Adrenals
O_2 utilization in altitude and thermal stress, 353
sympathetic response to CO_2, 1
Adrenocorticosteroids
capillary sensitivity, changes induced by stress, 257
effect on digital circulatory sensitivity to norepinephrine, 252
Adrenocorticotropic hormone, effect on digital circulatory sensitivity to norepinephrine, 252
AGATHON, S., 349
Age, role in interrelationship of respiratory mechanics, lung size and body size, 349
AGOSTONI, A., F., 344
AGOSTONI, E., A. TAGLIETTI, A. F. AGOSTONI AND I. SETNIKAR. Mechanical aspects of first breath, 344
Albumin
labeled, in measurement of plasma volume, 299
plasma, variations during muscular work, 97
Albumin-globulin ratio, urinary, after exercise, 244
Alcohol, effect on catechol amine excretion in anxiety, 118
Alkalosis, metabolic, influence of high O_2 concentration in respiratory compensation, 179
Alloxan diabetes, effects on acute inflammation, 278
Altitude
pulmonary effects of carbonic anhydrase inhibition, 47
relation to work performance and heart rate, 75
respiratory effects with thermal stress, 353
role in respiratory response to CO_2 during sleep, 325
ALVAREZ, A. A., 491
Ammonium chloride, effect on acid-base relations in spinal fluid and arterial blood, 385
Anesthesia
and hypothermia, pulmonary effects, 53
effects on physiologic changes in anoxia, 57
Anoxia
effects on circulation in deep hypothermia, 397
physiologic changes with anesthesia and hypothermia, 57
ARMANT, J. F., 513
Ascites, experimental, local factors in pathogenesis and development, 493
Asthma, check-valve mechanism, location, 35
ÅSTRAND, IRMA, 75
ÅSTRAND, P.-O. AND IRMA ÅSTRAND. Heart rate during muscular work in man exposed to prolonged hypoxia, 75
Atmospheric pressure, diminished, responses of pregnant ewe and fetal lamb, 171
AUSTIN, W. T. S. AND D. SHIRLING. A portable heart rate recorder, 521
Australian aborigines, cold adaptation, 211
Autonomic nervous system, response to CO_2, 1
Autoprothrombin levels after phenindione administration, 411
AYRES, NELL S., 129

Ballistocardiogram, genesis, 109
Barbiturate anesthesia, and response to anoxia, 57
BARNES, J. R., 97
BARNHART, MARION I., 184
BARTELSTONE, H. J., H. F. REILLY AND S. C. WANG. Simplified technique for chronic implantation of electrodes or cannulae in the brain: positioning and fixation of indwelling cannulae in the cerebral ventricles of the dog, 142
BARTLETT, R. G., JR., H. F. BRUBACH, R. C. TRIMBLE AND H. SPECHT. Relation of increased airway resistance to breathing work and breath velocity and acceleration patterns with maximum and near maximum breathing effort, 194
BEAVERS, W. R., 422
BEETHAM, W. P., JR. AND E. R. BUSKIRK. Effects of dehydration, physical conditioning and heat acclimatization on the response to passive tilting, 465
BEHNKE, A. R., JR., 129
BERNSTEIN, L. M., 309
Beta ray counter for liquid samples, 525
Bicarbonate concentrations in spinal fluid and arterial blood, 385
BICKELMANN, A. G., 385
BIDDULPH, C., D. D. VAN FOSSAN, D. CRISCUOLO AND R. T. CLARK, JR. Lactic acid concentration of brain tissues of dogs exposed to hypoxemia and/or hypocapnia, 486
Binders, protective effects in decompression from depth, 15
Birth, mechanics of first breath, 344
Blood
anaerobic samples, device for collection, 513
arterial, acid-base relation with spinal fluid, 385
chemistry in pregnant ewe and fetal lamb with diminished ambient pressure, 171
CO_2 levels, increased, and liver function, 184

erythrocyte hydration under positive acceleration, 393
gases and pH in acute progressive pneumothorax, 165
lactic acid concentration after hypoxemia and/or hypocapnia, 486
mixed venous, CO_2 tensions during rebreathing, 159
O_2 and CO_2 tensions determined with electrodes, 515
plasma electrolytes in cold acclimatization, 239
plasma protein fractions during muscular work and recovery, 97
platelet factor 1 and fibrinogen, relation to plasma, 406
platelets, species characteristics in irradiated mice treated with rat bone marrow, 105
spectrophotometric measurement of pigments, 147
Blood circulation
after strenuous exercise in heat, 425
studied in dog isolated hind limb, 368
Blood coagulation
effect of phenindione on prothrombin, autoprothrombin I and autoprothrombin II levels, 411
influence on hemostasis of small vessels and capillaries, 368
time, evaluation of a new silicone material, 527
Blood flow
in hand, measured with labeled potassium, 81
pulmonary, studied in human subjects by partitional respirometry, 357
role in genesis of force ballistocardiogram, 109
Blood pressure
in anxiety, effect of alcohol, 118
arterial, in deep hypothermia, 397
during rest and exercise, after digitalis, 417
in experimental irreversible shock, 283
relation to climatic preference, 430
transatrial, critical factor in decompression from depth, 15
Blood vessels
digital, sensitivity to norepinephrine, 247, 252
peripheral resistance in standard shock, 289
stress-induced changes in capillary sensitivity to adrenocorticosteroids, 257
Body
cooling after cold water immersion, effects of wet and dry clothing, 121
size, relation to mechanics of respiration and lung size from birth to young adulthood, 349
surface area, relation to body temperature in chlorpromazine hypothermia, 238
Body temperature
in chlorpromazine hypothermia, 238
elevated, methods for production and maintenance, 231
low, reversible cessation of circulation, 397
reduced, during anesthesia, pulmonary effects, 53
Body weight
effectiveness in two-handed pulls, 469
loss, relation of adipose tissue, 129
Bone marrow, heterologous, species characteristics of platelets after transplantation to irradiated recipients, 105
Bradley, A. F., 515
Brain
implantation of electrodes or cannulae, simple technique, 142
O_2 studied with chronically implanted electrodes, 85
ribonuclease and transaminase activity, 273
tissue lactic acid concentration after hypoxemia and/or hypocapnia, 486
Brandt, J. L. A multi-purpose radio-opaque catheter for simultaneous blood sampling, pressure recording and temperature measurement, 523
Breath holding during exercise, O_2 uptake and CO_2 tension relationships, 30
Breathing function, relation of increased airway resistance, 194
Bronchi
measurement of pressure, method, 35
pressure-volume studies, 337
Brouha, L., 97
Brown, E. B., Jr., 179
Brubach, H. F., 194
Burack, B., 381
Bushmen, Kalahari, adaptation to cold, 219
Buskirk, E. R., 465

Caldwell, M., June, 406, 411
Cannulas, simple technique of implantation, 142
Capillaries, sensitivity to adrenocorticosteroids, stress-induced changes, 257
Carbon dioxide
concentration, relation of respiratory response to basic respiratory pattern, 1
deficiency and brain lactic acid concentration, 486
effect on brain oxygen availability, 85
estimation in small samples of expired air, 309
respiratory response during sleep at sea level and at altitude, 325
retention, effect on liver function, 184
storage and elimination in carbonic anhydrase inhibition, 42
Carbon dioxide tension
during exercise, with breath holding, 30
in metabolic alkalosis, 179
of mixed venous blood during rebreathing, 159
in spinal fluid and arterial blood, 385
Carbonic anhydrase inhibition
during acute hypoxia, 47
effect on thyroid function, 491
respiratory effects, 42
Cardiac arrest, time of, after experimental irreversible shock, 283
Cardiac output
after digitalis, during rest and exercise, 417
determination with aid of rebreathing technique, 159
estimation from first part of dye-dilution curves, 92
relation to pulmonary diffusing capacity during exercise, 205
Carey, C., 15
Carey, G. C. R., 189
Carnazzo, A. J., 257
Carter, E. T. and R. T. Clark, Jr. Effects of carbonic anhydrase inhibition during acute hypoxia, 47

CARTER, E. T. AND R. T. CLARK, JR. Respiratory effects of carbonic anhydrase inhibition in the trained unanesthetized dog, 42
CASSELLS, J. S., 303
Catheter, radiopaque, for simultaneous blood sampling, pressure recording and temperature measurement, 523
CECIL, HELENE C., 278
Central nervous system
  lesions indicated by increased cerebrospinal fluid ribonuclease activity, 273
  response to CO_2, 1
Cerebrospinal fluid ribonuclease activity, 273
CHAPMAN, R. G. A simple, efficient beta ray counter for liquid samples, 525
Check-valve mechanism in asthma and emphysema, 35
CHINARD, F. P., 513
Chlorpromazine hypothermia, influence of body surface area, 238
CHRISTOPHE, J. AND J. MAYER. Effect of exercise on glucose uptake in rats and men, 269
Circulation
  digital, effects of norepinephrine, 247, 252
  physical model, 145
  reversible cessation in deep hypothermia, 397
  time, effect of Valsalva maneuver, 303
CLARK, L. C., JR., G. MISRAHY AND R. PHYLLIS FOX. Chronically implanted polarographic electrodes, 85
CLARK, R. T., JR., 42, 47, 486
Climate
  effect on nail growth, 135
  preference, related to physiologic characteristics, 430
Clothing, wet or dry, effects on body cooling after cold water immersion, 121
Cold
  effects on isolated, intact rabbit heart, 422
  local application, effect on flicker fusion frequency, 445
  response to, during O_2 breathing, 66
Cold acclimatization, influence on plasma electrolytes, 239
Cold adaptation
  of Australian aborigines, 211
  of Kalahari bushmen, 219
Cold stimulus in study of spatial summation of pain, 457
Cold stress, effect of physical fitness on response to, 226
Cold water immersion and body cooling in wet and dry clothing, 121

Contents of Volume 13

No. 1. JULY 1958

RESPIRATORY PATTERN AND RESPIRATORY RESPONSE TO CO_2 — *Karl Ernst Schaefer* 1

MECHANISMS IN DEVELOPMENT OF INTERSTITIAL EMPHYSEMA AND AIR EMBOLISM ON DECOMPRESSION FROM DEATH — *Karl E. Schaefer, Wilber P. McNulty, Jr., Charles Carey and Averill A. Liebow* 15

BREATH HOLDING DURING EXERCISE — *F. N. Craig and E. G. Cummings* 30

DIRECT MEASUREMENT OF INTRABRONCHIAL PRESSURE. ITS APPLICATION TO THE LOCATION OF THE CHECK-VALVE MECHANISM — *E. Dekker, J. G. Defares and H. Heemstra* 35

RESPIRATORY EFFECTS OF CARBONIC ANHYDRASE INHIBITION IN THE TRAINED UNANESTHETIZED DOG — *Earl T. Carter and Robert T. Clark, Jr.* 42

EFFECTS OF CARBONIC ANHYDRASE INHIBITION DURING ACUTE HYPOXIA — *Earl T. Carter and Robert T. Clark, Jr.* 47

EFFECT OF HYPOTHERMIA ON COMPLIANCE AND RESISTANCE OF THE LUNG-THORAX SYSTEM OF ANESTHETIZED MAN — *Philip H. Sechzer* 53

PHYSIOLOGIC CHANGES IN ACUTE ANOXIA WITH ANESTHESIA AND HYPOTHERMIA — *R. Gunter, R. D. Walter, P. B. Sabawala and B. Konigsmark* 57

EFFECTS OF OXYGEN BREATHING ON TUMOR OXYGEN MEASURED POLAROGRAPHICALLY — *Frederick Urbach and Werner K. Noell* 61

EFFECT OF BREATHING O_2 AT ONE ATMOSPHERE ON THE RESPONSE TO COLD IN HUMAN SUBJECTS — *Gerd Froese* 66

HEART RATE DURING MUSCULAR WORK IN MAN EXPOSED TO PROLONGED HYPOXIA — *Per-Olof Åstrand and Irma Åstrand* 75

MEASUREMENT OF BLOOD FLOW IN THE HUMAN HAND WITH RADIOACTIVE POTASSIUM — *Leo A. Sapirstein and Richard S. Goodwin* 81

CHRONICALLY IMPLANTED POLAROGRAPHIC ELECTRODES — *Leland C. Clark, Jr., George Misrahy and R. Phyllis Fox* 85

ESTIMATION OF CARDIAC OUTPUT FROM FIRST PART OF ARTERIAL DYE-DILUTION CURVES — *Peter S. Hetzel, H. J. C. Swan, Alfredo A. Ramirez de Arellano and Earl H. Wood* 92

CHANGES IN CONCENTRATION OF PLASMA PROTEIN FRACTIONS DURING MUSCULAR WORK AND RECOVERY — *R. De Lanne, J. R. Barnes and L. Brouha* 97

SPECIES CHARACTERISTICS OF PLATELETS OF X-IRRADIATED MICE TREATED WITH RAT BONE MARROW — *E. Repplinger, I. R. Schwartz, C. C. Congdon and L. M. Tocantins* 105

GENESIS OF THE FORCE BALLISTOCARDIOGRAM OF THE DOG — *William H. Frederick and E. E. Eddleman, Jr.* 109

EFFECT OF ALCOHOL ON EXCRETION OF CATECHOL AMINES IN CONDITIONS GIVING RISE TO ANXIETY — *Pamela J. Goddard* 118

BODY COOLING IN WET AND DRY CLOTHING — *John F. Hall, Jr., Allen P. Kearney, Johannes W. Polte and Stanley Quillette* 121

ANALYSIS OF ADIPOSE TISSUE IN RELATION TO BODY WEIGHT LOSS IN MAN — *Cecil Entenman, William H. Goldwater, Nell S. Ayres and Albert R. Behnke, Jr.* 129

A POSSIBLE CLIMATIC EFFECT ON NAIL GROWTH — *Basil Geoghegan, D. F. Roberts and M. R. Sampford* 135

SPECIAL COMMUNICATIONS

APPARATUS FOR SEPARATION AND EXPRESSION OF SECRETIONS IN RESPIRATORY TRACT OF EXPERIMENTAL ANIMALS — *Richard M. Mendenhall and Richard N. Matzen* 139

SIMPLIFIED TECHNIQUE FOR CHRONIC IMPLANTATION OF ELECTRODES OR CANNULAE IN THE BRAIN: POSITIONING AND FIXATION OF INDWELLING CANNULAE IN THE CEREBRAL VENTRICLES OF THE DOG — *H. J. Bartelstone, H. F. Reilly and S. C. Wang* 142

A PHYSICAL MODEL OF THE CIRCULATION — *Donald P. Morgan and Fred S. Grodins* 145

A SIMPLIFIED LUCITE CUVETTE FOR THE SPECTROPHOTOMETRIC MEASUREMENT OF HEMOGLOBIN AND OXYHEMOGLOBIN — *Gabriel G. Nahas* 147

A RUBBER SUCTION CUP SURFACE ELECTRODE WITH HIGH ELECTRICAL STABILITY — *B. Shackel* 153

No. 2. SEPTEMBER 1958

DETERMINATION OF $P\bar{v}_{CO_2}$ FROM THE EXPONENTIAL CO_2 RISE DURING REBREATHING
J. G. Defares 159

RESPIRATORY RESPONSE TO ACUTE PROGRESSIVE PNEUMOTHORAX
Allan Hemingway and Daniel H. Simmons 165

ACCLIMATIZATION RESPONSE OF THE PREGNANT EWE AND FETAL LAMB TO DIMINISHED AMBIENT PRESSURE
I. H. Kaiser, J. N. Cummings, S. R. M. Reynolds and J. P. Marbarger 171

RESPIRATORY COMPENSATION TO METABOLIC ALKALOSIS IN DOGS: INFLUENCE OF HIGH OXYGEN CONCENTRATION *J. L. Reeves and E. B. Brown, Jr.* 179

EFFECT OF INCREASED CARBON DIOXIDE RETENTION ON LIVER FUNCTION IN THE DOG
Edward L. Holmes and Marion I. Barnhart 184

FIELD TESTING OF PULMONARY DYNAMICS
R. J. Shephard, M. L. Thomson, G. C. R. Carey and J. J. Phair 189

RELATION OF INCREASED AIRWAY RESISTANCE TO BREATHING WORK AND BREATH VELOCITY AND ACCELERATION PATTERNS WITH MAXIMUM AND NEAR MAXIMUM BREATHING EFFORT *R. G. Bartlett, Jr., H. F. Brubach, R. C. Trimble and H. Specht* 194

RELATIONSHIP BETWEEN CARDIAC OUTPUT AND APPARENT DIFFUSING CAPACITY OF THE LUNG IN NORMAL MEN DURING TREADMILL EXERCISE *R. H. Shepard, E. Varnauskas, H. B. Martin, H. A. White, S. Permutt, J. E. Cotes and R. L. Riley* 205

COLD ADAPTATION IN AUSTRALIAN ABORIGINES
P. F. Scholander, H. T. Hammel, J. S. Hart, D. H. LeMessurier and J. Steen 211

ADJUSTMENT TO COLD OF BUSHMEN IN THE KALAHARI DESERT
C. H. Wyndham and J. F. Morrison 219

HUMAN PHYSIOLOGICAL RESPONSES TO A STANDARDIZED COLD STRESS AS MODIFIED BY PHYSICAL FITNESS *Thomas Adams and Earl J. Heberling* 226

REACTION OF DOGS TO HYPERTHERMIA AND FEVER *Oleg Selawry and Gunther E. Kraus* 231

CHLORPROMAZINE HYPOTHERMIA IN RATS *J. LeBlanc* 237

EFFECT OF COLD ACCLIMATIZATION ON PLASMA ELECTROLYTE LEVELS
John P. Hannon, Anna M. Larson and David W. Young 239

OBSERVATIONS ON THE HARVARD STEP TEST *E. N. Keen and A. W. Sloan* 241

ELECTROPHORETIC ANALYSIS OF EXERCISE PROTEINURIA *J. Nedbal and V. Seliger* 244

WORK OF DIGITAL VASOCONSTRICTION PRODUCED BY INFUSED NOREPINEPHRINE IN PRIMARY HYPERTENSION *Milton Mendlowitz and Nosrat Naftchi* 247

WORK OF DIGITAL VASOCONSTRICTION PRODUCED BY INFUSED NOREPINEPHRINE IN CUSHING'S SYNDROME *Milton Mendlowitz, Stanley Gillow and Nosrat Naftchi* 252

RELATION OF CAPILLARY RESISTANCE AND ADRENAL CORTICOSTEROIDS. STRESS-INDUCED CHANGES IN THE SENSITIVITY OF CAPILLARIES TO CORTICOSTEROIDS
Jenö Kramár, Margarete Simay-Kramár and Anthony J. Carnazzo 257

RENAL TUBULAR REGULATION OF UREA EXCRETION IN MAN
Herschel V. Murdaugh, Jr., Bodil Schmidt-Nielsen, Eleanor M. Doyle and Roberta O'Dell 263

EFFECT OF EXERCISE ON GLUCOSE UPTAKE IN RATS AND MEN
Jean Christopher and Jean Mayer 269

CEREBROSPINAL FLUID RIBONUCLEASE ACTIVITY *J. C. Houck* 273

SOME EFFECTS OF ALLOXAN DIABETES ON ACUTE INFLAMMATION
Bernard K. Forscher and Helene C. Cecil 278

STANDARD EXPERIMENTAL SHOCK AND POST-MORTEM CARDIAC ARREST *F. E. Weale* 283

TOTAL PERIPHERAL RESISTANCE IN STANDARD SHOCK *F. E. Weale* 289

HUMAN PLASMA HEPARIN LEVELS AND LIPEMIA CLEARING ACTIVITY AFTER INGESTION OF ANIMAL AND VEGETABLE FAT *Hyman Engelberg* 296

SIMULTANEOUS MEASUREMENT OF PLASMA VOLUME IN MAN WITH T-1824 AND AN IMPROVED I^{131}-ALBUMIN METHOD *J. J. Franks and F. Zizza* 299

Effect of Valsalva Maneuver on Circulation Time
Ronald A. Malt, Joseph S. Cassells and Donald D. Smith 303

SPECIAL COMMUNICATIONS

A Pneumatic Isotonic Lever System for Dog Skeletal Muscle
John T. Fales, Joseph L. Lilienthal, Jr., Samuel A. Talbot and Kenneth L. Zierler 307

Modified Scholander Apparatus for Accurate Estimation of Carbon Dioxide in Small Samples of Expired Air
Lester M. Levy, Lionel M. Bernstein and Daniel Devor 309

Continuous Perfusion and Absorption in the Jejunum of the Dog *John W. Pearson* 313

No. 3. NOVEMBER 1958

Effects of Cervical Vagotomy on Pulmonary Ventilation and Mechanics
Thomas P. K. Lim, Ulrich C. Luft and Fred S. Grodins 317

Changes in Respiratory Response to CO_2 During Natural Sleep at Sea Level and at Altitude *Donal J. Reed and Ralph H. Kellogg* 325

Relationship Between Maximum Expiratory Flow and Degree of Lung Inflation
Robert E. Hyatt, Donald P. Schilder and Donald L. Fry 331

Pressure-Volume Measurements on Dog Bronchi
Harry B. Martin and Donald F. Proctor 337

Mechanical Aspects of the First Breath
E. Agostoni, A. Taglietti, A. Ferrario Agostoni and I. Setnikar 344

Relation Between Mechanics of Respiration, Lung Size and Body Size From Birth to Young Adulthood *C. D. Cook, P. J. Helliesen and S. Agathon* 349

Oxygen Transport, Utilization and Storage in Rats Acclimated to Altitude at Different Temperatures *Dominic Criscuolo, Henry B. Hale and Roy B. Mefferd, Jr.* 353

Partitional Respirometry in Human Subjects *Roy J. Shephard* 357

Dog's Isolated Hind Limb Preparation as a Suitable Method for the Study of Hemostasis *W. O. Cruz and A. C. Oliveira* 368

Human Endogenous Plasma Lipemia Clearing Activity. Observations in 482 Individuals *Hyman Engelberg* 375

In Vitro and in Vivo Effects of Inositol Phosphatide (Lipositol) Fraction of Soybean on Serum Lipids and Lipoproteins
Bernard A. Sachs, Ethel Danielson, Bernard Burack and Louis Leiter 381

Acid-Base Relations Between Spinal Fluid and Arterial Blood With Special Reference to Control of Ventilation *Eugene D. Robin, Robert D. Whaley, Charles H. Crump, Albert G. Bickelmann and David M. Travis* 385

Erythrocyte Hydration Under Positive Acceleration
Richard L. Fenichel and George H. Kydd 393

Reversible Cessation of Blood Circulation in Deep Hypothermia
E. F. Adolph, S. Klem and L. B. Morrow 397

Relationship of Platelet Factor 1 and Platelet Fibrinogen to Plasma
Shirley A. Johnson, Raymond W. Monto and M. June Caldwell 406

Effect of Administration of Phenindione on Blood Levels of Prothrombin, Autoprothrombin I and Autoprothrombin II
Shirley A. Johnson, M. June Caldwell and Edward McCall Priest 411

Hemodynamic Effects of Cardiac Glycosides on Normal Human Subjects During Rest and Exercise *M. Henry Williams, Jr., Lenore R. Zohman and Arnold C. Ratner* 417

Effect of Cold on the Isolated and Intact Rabbit Heart
Benjamin G. Covino and W. R. Beavers 422

Strenuous Exercise in a Hot Environment
D. S. Kronfeld, W. V. Macfarlane, Nancy Harvey, Beth Howard and Kathleen W. Robinson 425

Physiological Characteristics in Relation to Climatic Preference
Audrey F. M. Driver 430

COMPARISON OF THE STIMULATION OF THE WARMTH SENSE ORGAN BY MICROWAVE AND INFRARED *A. J. H. Vendrik and J. J. Vos* 435

EFFECT OF LOCAL COLD APPLICATION ON THE FUSION FREQUENCY OF FLICKER *Ernst Simonson* 445

THE EXPERIMENTAL APPROACH TO PAIN *A. E. McKenna* 449

SPATIAL SUMMATION OF PAIN *Leon C. Greene and James D. Hardy* 457

EFFECTS OF DEHYDRATION, PHYSICAL CONDITIONING AND HEAT ACCLIMATIZATION ON THE RESPONSE TO PASSIVE TILTING *W. P. Beetham, Jr. and E. R. Buskirk* 465

ANALYSIS OF TWO-HANDED PULLS USING FREE BODY DIAGRAMS *Wilfrid T. Dempster* 469

MEASUREMENT OF ENDOESOPHAGEAL PRESSURE *J. M. Petit and G. Milic-Emili* 481

LACTIC ACID CONCENTRATION OF BRAIN TISSUES OF DOGS EXPOSED TO HYPOXEMIA AND/OR HYPOCAPNIA *Clyde Biddulph, Donald D. Van Fossan, Dominic Criscuolo and Robert T. Clark, Jr.* 486

EFFECT OF ACETAZOLEAMIDE (DIAMOX) ON THYROID FUNCTION *J. L. Gabrilove, A. A. Alvarez and L. J. Soffer* 491

LOCAL FACTORS IN THE PATHOGENESIS AND COURSE OF EXPERIMENTAL ASCITES *William H. Waugh* 493

INFLUENCE OF SPERMATOZOAL CONCENTRATION AND INITIAL FRUCTOSE LEVEL ON FRUCTOLYSIS IN HUMAN SEMEN *John MacLeod and Matthew Freund* 501

EFFECT OF ADDITION OF FRUCTOSE AND OF GLUCOSE ON THE FRUCTOLYSIS AND MOTILITY OF HUMAN SEMEN *Matthew Freund and John MacLeod* 506

SPECIAL COMMUNICATIONS

DIRECT GRAPHICAL REPRESENTATION OF HELIUM KATHAROMETER INDICATOR AND OTHER GALVANOMETER READINGS *Joseph H. Miller and Daniel H. Simmons* 510

A SIMPLE DEVICE FOR RAPID SERIAL COLLECTION OF ANAEROBIC BLOOD SAMPLES *Theodore Enns, Francis P. Chinard, Richard H. Shepard and John F. Armant* 513

ELECTRODES FOR BLOOD pO_2 AND pCO_2 DETERMINATION *John W. Severinghaus and A. Freeman Bradley* 515

A PORTABLE HEART RATE RECORDER *W. T. S. Austin and D. Shirling* 521

A MULTI-PURPOSE RADIO-OPAQUE CATHETER FOR SIMULTANEOUS BLOOD SAMPLING, PRESSURE RECORDING AND TEMPERATURE MEASUREMENT *J. Leonard Brandt* 523

A SIMPLE, EFFICIENT BETA RAY COUNTER FOR LIQUID SAMPLES *Robert G. Chapman* 525

AN EVALUATION OF SILICLAD—A NEW SILICONE MATERIAL *L. M. Fisher and L. B. Jaques* 527

PRECAUTIONS IN THE PHYSIOLOGICAL APPLICATION OF THERMISTORS *David G. Fleming* 529
